

Day One – Thursday August 17th

Hall 310 08:00	Registration		
Room 306AB 08:30 – 09:00	Welcome / Introduction Gaétan Barrette , Quebec Health Minister		
Room 306AB 09:00 – 10:30	<p>Moving from evidence to Action</p> <p>CHAIR – Steve Woloshin & Lisa Schwartz Barry Kramer – Overdiagnosis: The Clash of Science and Intuition Stacy Carter – Counterintuitive harms, social movements, and moral challenges Normand Laberge – Healthcare overuse; Time for action... Patient/ Citizen Representative – Alies Maybee</p>		
Hall 310 10:30 – 11:00	Break / Posters		
Parallel Sessions 11:00 – 12:30	<p>Room 307A Overuse & Over Medicalisation CHAIR – John Brodersen</p> <p>Minna Johansson - Overdiagnosis and overtreatment in organised screening for abdominal aortic aneurysm – a registry study</p> <p>Chisato Hamashima - Rapid dissemination of H. pylori eradication for chronic gastritis among asymptomatic people</p> <p>Geoff Porter - The Increasing Incidence of Thyroid Cancer: A Pan-Canadian Analysis</p>	<p>Room 307B Moving from Evidence to Action CHAIR – Holly Witteman</p> <p>Chris Degeling - Influencing Health Policy through Public Deliberation: Lessons learned from two decades of Citizens'/Community Juries</p> <p>Paula Riganti - Motivating factors influencing women on performing mammograms for breast cancer screening</p> <p>Sian Taylor-Philips - Do methods of evidence review affect policy-makers</p>	<p>Room 308A Overuse & Over Medicalisation (FRENCH) CHAIR – Guylene Theriault</p> <p>Antoine Lapointe - Calcium, magnesium and phosphorus dosage: Impacts and relevance in the Emergency Department</p> <p>Gilles Mignot - A review of medications to be excluded from care. The experience of the magazine Prescrire in France</p> <p>Marc Rhains - Prenatal ultrasound in normal pregnancy: the bridge between health technology assessment guidance and local medical perspective</p>

	<p>Stephen Hall - The excessive costs of routine medical tests when ordered by physicians who are higher (over) testers</p> <p>Janet Squires - Overuse of contralateral prophylactic mastectomy: A growing concern in over-aggressive treatment of breast cancer patients</p> <p>Sayeeda Amber Sayed - Frequency of Pap testing in women aged 10-29 years in Alberta, Canada: A case of over screening?</p>	<p>decisions of whether to implement new screening programmes?</p> <p>Milan Mrekaj - Demonstrating the value of direct access to musculoskeletal care in the UK private setting</p> <p>Robin Holtedahl - Experience with reducing the volume of knee arthroscopies in patients with degenerative meniscal tears and osteoarthritis</p> <p>Natalie Armstrong - System change to mitigate overdiagnosis and overtreatment: How can we ensure 'just enough medicine'?</p>	<p>Manon Niquette - Facebook pharmaceutical advertising to mothers and the risk of acetaminophen overdose in small children</p>	
	<p>Room 308B Workshop - Tom Perry & Emily McDonald, Deprescribing: the solution to irrational polypharmacy</p>	<p>Room 309A Workshop - Barbara Dunn, Overdiagnosis in Genetic Screening: Clinical Implications</p>	<p>Room 309B Workshop – Gordon Schiff, Balancing Diagnostic Errors with Conservative Diagnosis: Developing a New Paradigm for More Appropriate Diagnosis</p>	
<p>Room 306AB 12:30 – 13:00</p>	<p>3 minute elevator pitches</p>			
<p>ESPACE URBAN 13:00 – 14:00</p>	<p>Lunch</p>			
<p>Parallel Sessions 14:00 – 15:30</p>	<p>Room 307A Overuse & Over Medicalisation CHAIR – Steve Woloshin & Lisa Schwartz</p> <p>Shaun Peter Qureshi - New doctors' perceptions of inappropriate investigations and treatment for dying patients - a qualitative</p>	<p>Room 307B Overuse & Over Medicalisation CHAIR – Yu Wang</p> <p>Moriah Ellen - Nurses' perceptions on the overuse of health services in health systems: A qualitative study</p>	<p>Room 308A Moving from Evidence into Action CHAIR – Barry Kramer</p> <p>Rachel Farber - Examination of the Practice Shift from Plain Film Mammography to Digital Mammography</p>	<p>Room 308B Engaging with citizens, patients and the public CHAIR – Navjoyt Ladher</p> <p>Chris Degeling - Should mammography screening programs continue to invite women aged 70-74 to participate? – A report on two</p>

	<p>medical education study of Scottish doctors</p> <p>Ingvild M Rosenlund - The extent, regional variation and impact of gynaecologist payment models in unwarranted pelvic examinations: A nationwide cross sectional study</p> <p>Zachary Bouck - Measuring the frequency and variation of unnecessary care across Canada</p> <p>Martin Gariépy - Measuring overuse of Head CTs for Pediatric mTBI patients in two Canadian Emergency Departments (phase I of the Wiki Head CT Patient Decision Aid Study)</p> <p>María Eugenia Santiago Cadelago - Consequences of prostate cancer screening in asymptomatic men enrolled in a private Health Insurance Plan In Buenos Aires, Argentina</p>	<p>Kevin McGeehan - Factors associated with the initiation of testosterone replacement therapy among men participating in the 45 and Up study</p> <p>James Rickert - Preliminary Results of An Innovative Patient Centered Preauthorization and Data Collection Program for Total Joint Replacement</p> <p>Albert Prats-Urbe - Use and misuse of PSA testing for prostate cancer screening in Catalonia</p> <p>Niall McLaren – Overdiagnosis in Psychiatry: the looming catastrophe</p>	<p>Anat Gaver: Implementing tools/measures for reduction of overdiagnosis and overtreatment in clinical guidelines - a position paper</p> <p>Karsten Juhl Jørgensen – A Framework for determining when screening interventions should be de-intensified or de-implemented</p> <p>Imran Sajid - Clinical Commissioning Strategies to Reduce Diagnostic Over-requesting and Improve Interpretation of Musculoskeletal Imaging and Laboratory Pathology: Tools to de-bias clinicians and patients; what works and what doesn't in practice?</p> <p>Martin Scherer - Guideline for "Protection against Over- and Underuse of Healthcare" of the German College of General Practitioners and Family Physicians (DEGAM)</p> <p>Marleine Azar - Trial and Meta-analysis Characteristics Associated with Data Contribution in Individual Patient Data Meta-Analyses of Randomized Controlled Trials</p>	<p>community juries of Australian women in the target age group</p> <p>John W Osterman - Overdiagnosis and Public Health: Inventing an Epidemic in Moldy Montreal Schools</p> <p>Nikesh Parekh - Medication-related problems: A qualitative exploration of the older person's lived experience</p> <p>Johanna Caro Mendivelso - Low-value clinical practices from the perspective of patients. A qualitative study</p> <p>Rae Thomas - Case Finding for Dementia in Primary Care: What a Community Jury thinks Australian General Practice Physicians Should Do</p>
	<p>Room 309A</p> <p>Workshop - John Abramson, Report From Inside the Statin Wars: The best--but inadequate--evidence about whether low risk people benefit from statin therapy, and the resistance to robust scientific debate</p>			
	<p>Room 309B</p>			

	Seminar - Brooke Nickel, Applying a research framework for medical overuse – examples from research in thyroid cancer		
Hall 310 15:30 – 16:00	Break / Posters		
Room 306AB 16:00 – 17:30	Engaging with Citizens, Patients and the Public CHAIR – Barry Kramer Fran Visco – Richard Morley – Welcome to the revolution: the growing international movement for healthcare consumer involvement in research Carolyn Canfield – Truth, Belief and Evidence in Health Choices: it's a matter of trust		
Day Two – Friday August 18th			
Hall 310 08:00	Registration		
Room 306AB 08:30 – 10:00	Tackling the defensive practice argument CHAIR – Guylene Theriault Audrey Parayre Dr Lorraine Westfall Michel T. Giroux		
Hall 310 10:00 – 10:30	Break / Posters		
Parallel Sessions 10:30 – 12:00	Room 307A Overuse & Over Medicalisation CHAIR – France Légaré Geneviève Rail - Overdiagnosis and the construction of “at-risk” girls: HPV vaccination campaigns as rescue missions	Room 307B Moving from Evidence into Action CHAIR – Toni Dedeu Ora Paltiel - Examining the utilization of CT or PET-CT for routine surveillance of asymptomatic lymphoma patients in remission in Israel; evidence-based	Room 308A Communicating Overdiagnosis CHAIR – Karsten Juhl Jørgensen Fabien Gagnon - Overdiagnosis of Psychiatric Disability: Best practice, Advocacy, « Complaisance », Fraud or Ignorance?

	<p>Edeltraut Kröger - Health impacts and characteristics of deprescribing interventions in older adults - a systematic review</p> <p>Dana Sumilo - How many tonsillectomies are necessary? An eleven year retrospective cohort study of indications and eligibility for childhood tonsillectomy in UK primary care</p> <p>Wieteke van Dijk - "Dear neurologist, that's not my spine. That's a model on a table." How contextual factors contribute to decision making</p> <p>Megan Evans - Marketing as Medicine: Developing Disease to Produce Profit</p>	<p>groundwork for a "choosing wisely" recommendation</p> <p>Fred Arthur - The Failure of the PSA Test. Implications and Opportunities</p> <p>Wynne Norton - De-implementation of Ineffective, Unproven, Harmful, or Low-Value Health Care Services and Practices: A Systematic Review of Grants Funded by the U.S. National Institutes of Health (NIH) and the Agency for Healthcare Research and Quality (AHRQ), 2000-2017</p> <p>Christopher Rauscher - Polypharmacy Risk Reduction in BC- Practical Experience of Moving From Contemplation to Action</p> <p>Milan Mrekaj - Effectiveness of conservative treatment for musculoskeletal conditions</p> <p>Ora Paltiel - Use of National Quality Indicators to Reduce Under- and Overdiagnosis of Cervical Cancer in Israel</p>	<p>Dennis Fechtelpeter - Development and pilot testing of a short film explaining overdiagnosis</p> <p>Brenda Wilson - First do no harm? The importance of communicating overdiagnosis in guideline recommendations: Approach of the Canadian Task Force on Preventive Health Care</p> <p>Nancy Schoenborn - Older adults' preferences for how to explain cancer screening cessation - results from a national survey using best-worst scaling</p> <p>Samara Noble - Could disease labelling have positive effects? An experimental study exploring the effect of the Chronic Fatigue Syndrome label on social support</p> <p>Jolyn Hersch - 2-Year Follow-Up in a Breast Screening Decision Aid RCT: Retention of Overdetection Knowledge and Other Decision Making Effects</p>
	<p>Room 308B Seminar - Marc Rhainds, Patient expectations and engagement: a challenge in overdiagnosis and overuse</p>	<p>Room 309A Seminar - Leonore Tiefer, Biojest: An International critical health listserv, 1998-2017</p>	<p>Room 309B Seminar - Corinna Schaefer, How to strengthen trustworthiness of „choosing wisely"-recommendations - best practice examples from Germany and Austria</p>
<p>Parallel Sessions 12:00 – 13:30</p>	<p>Room 306AB Plenary Debate - Journal Editors CHAIR – Navjoyt Ladher</p>	<p>Room 307A Workshop - Karen Born, Fostering Undergraduate Medical Student Leadership in Resource Stewardship: Choosing Wisely Canada STARS</p>	<p>Room 307B Workshop – Andrew Foy, A Mixed Methods Study of an Enhanced Decision Aid for Emergency Department Patients with Low-Risk Chest Pain</p>
<p>ESPACE URBAN 13:30 – 14:30</p>	<p>Lunch</p>		

<p>Parallel Sessions 14:30 – 16:00</p>	<p>Room 307A Overuse & Over Medicalisation CHAIR – Annie LeBlanc</p> <p>Krista Margeson - Reducing polypharmacy in the frail elderly: an improvement project in a rural longterm care facility</p> <p>Jack William O’Sullivan - Assessing how appropriately diagnostic tests are used in primary care: a systematic review and meta-analysis</p> <p>Lorna Gibson - Impact of detecting potentially serious incidental findings during multi-modal imaging: experience from Uk Biobank</p> <p>Minna Johansson - Screening for malignant melanoma – results from a Cochrane review</p> <p>Francois Rousseau - Using per-capita clinical laboratory expenses to compare appropriate use of laboratory tests</p> <p>Monique Pappadis - Perceptions of Overdiagnosis of Breast Cancer among a Tri-ethnic Sample of Women 70 Years of Age and Older</p>	<p>Room 307B Communicating Overdiagnosis CHAIR – Marie Dominique Beaulieu</p> <p>Jolyn Hersch - How Information About Overdetection Changes Breast Screening Decisions: Mediation Analysis Within a Randomised Controlled Trial</p> <p>Ronald Adler - Cancer overdiagnosis explained: A simple graphical model</p> <p>Ashley Houston - Perspectives on Discontinuing Breast Cancer Screening Among Older Women</p> <p>Dagmar Luehmann - Prioritizing Recommendations for the guideline „Protection against Over and Underuse of Healthcare" by the German College of General Practice and Family Medicine (DEGAM) - Methodological Considerations</p> <p>France Légaré - Decisional conflict screening for a diversity of primary care decisions. Are we SURE yet?</p>
	<p>Room 308A Workshop - Edeltraut Kröger, Polypharmacy and Deprescribing</p>	<p>Room 308B Workshop - Nick Zhygan, John Jose Nunez & Alexandra Bite, Choosing Wisely: one person at a time</p>
	<p>Room 309A Seminar - David Warriner, How to Choose Wisely - What makes a successful campaign to reduce too much medicine</p>	<p>Room 309B Seminar - Pamela Marcus, Discussing our disagreements: what is the definition of cancer overdiagnosis?</p>
<p>Hall 310 16:00 – 16:15</p>	<p>Break / Posters</p>	
<p>Room 306AB 16:15 – 17:45</p>	<p>Communicating about Overdiagnosis CHAIR –Stacy Carter</p>	

	<p>France Légaré - Shared decision making in the context of overdiagnosis and overtreatment André Picard - The challenges and opportunities of communicating overdiagnosis to a wide public audience Rita Redberg - Communicating overdiagnosis to health professionals - via the vehicle of a medical journal Patient/ Citizen Representative – André Gaudreau</p>		
18:00 – 20:00	QMA Cocktail Reception at the Palais Montcalm		
Day Three – Saturday August 19th			
Hall 310 08:00	Registration		
Room 306AB 09:00 – 10:30	<p>Overuse, Overmedicalisation & Overdiagnosis</p> <p>CHAIR – John Brodersen Wendy Levinson – Choosing Wisely: From an Idea to an International Movement Vinay Prasad Vikas Saini Patient/ Citizen Representative – Mathieu Bouchard</p>		
Hall 310 10:30 – 11:00	Break / Posters		
Parallel Sessions 11:00 – 12:30	<p>Room 307A Overuse & Over Medicalisation CHAIR – Yu Wang</p> <p>Ignacio Ricci - Colonoscopy overuse in colorectal cancer screening and associated factors in Argentina: A retrospective cohort study</p> <p>Abdou Elhendy - Overdiagnosis of coronary artery disease by stress echocardiography. Identification of variables associated with a false positive stress test</p>	<p>Room 307B Overuse & Over Medicalisation CHAIR – Steve Woloshin & Lisa Schwartz</p> <p>Hyeong Sik Ahn - Association between Prostate Cancer Specific-Antigen (PSA) Screening and Prostate Cancer Incidence and Mortality in the Population: A Nationwide Population-Based Study in Korea</p> <p>Marc D. Ryser - Reducing overtreatment of ductal carcinoma in situ through active</p>	<p>Room 308A Other CHAIR – Jack O'Sullivan</p> <p>Brooke Levis - Overdiagnosis of major depression based on lay-administered fully structured diagnostic interviews</p> <p>Simon Décary - Diagnostic validity of combining history elements and physical examination tests for symptomatic knee meniscal tears</p>

	<p>Laura Llobet i Vila – Facing a dilemma in elderly complex and vulnerable patients: to stop or not to stop prevention?</p> <p>Tristan Rainville - Analytical Approaches in Phase III Clinical Trials of Direct Oral Anticoagulants: A Systematic Review</p> <p>Simon Berthelot - A time-driven activity-based costing study to estimate the cost of diagnostic tests ordered in the emergency department</p>	<p>surveillance: harm-benefit tradeoffs from the patient perspective</p> <p>Minjoung Monica Koo - Common pathways to incidental diagnosis of cancer beyond screening: insights from a national audit of cancer patients in England</p> <p>Eric Coon - Increased diagnosis of lipid disorders and treatment with statins among United States children, 2002-2014</p> <p>Rachelle Buchbinder - Understanding the information needs of people considering arthroscopy for knee pain due to osteoarthritis: informing the development of an evidence-based decision tool</p> <p>Gillian Elliott - Efforts to reduce low-value healthcare practices: exploring the impact of psychological, behavioural and socio-contextual forces</p>	<p>Tessa Copp - Polycystic ovary syndrome controversy: are expanding disease definitions unnecessarily labelling women with PCOS?</p> <p>Rami Rahal - Avoidable diagnostic breast imaging and biopsy investigations: Impact of rising abnormal screening mammography rates</p> <p>Cindy Gauvreau - The comparative impacts of cervical cancer screening guidelines on the overdiagnosis of pre-cancerous lesions in Canada</p>
	<p>Room 308B Workshop - Eva Verkerk, Less is really more: how to reduce low-value care</p>		<p>Room 309A Workshop - Katy Bell, Diagnostic test measurement variability – relevance to overdiagnosis</p>
	<p>Room 309B Seminar - John Brodersen, Imaging asymptomatic people: are we doing more good than harm?</p>		
<p>Room 306AB 12:30 – 13:00</p>	<p>3 minute elevator pitches</p>		
<p>ESPACE URBAN 13:00 – 14:00</p>	<p>Lunch</p>		
<p>Parallel Sessions 14:00 – 15: 15</p>	<p>Room 307A Overuse & Over Medicalisation CHAIR – Navjoyt Ladher</p>	<p>Room 307B Other CHAIR – Guylene Theriault</p>	<p>Room 308A Engaging/ Comm & Other (FRENCH) CHAIR – France Légaré</p>

	<p>Laurence Simard-Émond - Endometrial biopsy in an outpatient gynaecological setting : overinvestigation</p> <p>Rebecca Francois - Adaptation and Validation of the Multi-dimensional Measure of Informed Choice for Cardiopulmonary Resuscitation and Mechanical Ventilation for Elderly Patients in a French Canadian Population</p> <p>Gemma Jacklyn - Overdiagnosis in Australia due to screening mammography for breast cancer</p> <p>Eva Verkerk - Identifying and reducing low-value care: development of a typology</p> <p>Prajakta Adsul - Using colposcopy to calculate screening performance measures of VIA in Indian cervical cancer screening programs: potential for overtreatment?</p> <p>Christiana Naaktgeboren - Interventions to reduce unnecessary laboratory test utilization in hospital practice - A narrative review</p>	<p>B.E.L. Vrijsen – The positive side of overdiagnosis: does an immediate comprehensive panel of laboratory tests in outpatient care improve patient outcomes?</p> <p>Kevin Jenniskens - Lost in terminology: towards a typology for dissecting overdiagnosis</p> <p>Susan Weller – Understanding motivations of older women to continue or discontinue breast cancer screening</p> <p>Thnaya Patirana - Quantifying the risk of overdiagnosis associated with Prostate cancer screening - a novel, life time risk approach</p> <p>Pamela Marcus - Serendipitous detection of pancreas cancer during lung cancer screening with low-dose computed tomography</p> <p>Danielle Durham - Awareness of overdiagnosis in cancer screening among post-doctoral students enrolled in a cancer screening course</p>	<p>El Kebir Ghandour - Adaptation of two American Decision Aids to decrease head computed tomography (CT) scan overuse for minor head injuries in Canada: a pan-Canadian consensus meeting using the Nominal Group Technique</p> <p>Catherine Riva - Mammography screening, overdiagnosis and conflicts of interest. The textbook case of the first screening programs in Switzerland</p> <p>Marc-Andre Gagnon - Big Pharma and Economic Ghostmanagement; Analyzing the roots of Overdiagnosis</p> <p>Lionel Adisso - Scaling up shared decision making to the general public through workshops in public libraries: proof of concept study</p>
	<p>Room 308B Workshop - Teppo Jarvinen, #ShowMoreSpine: a grassroots campaign to tackle the widening of disease definitions - lessons learned and what's next</p>		
	<p>Room 309A Seminar - Natalie Armstrong, Realising the value of social science theory and methods for researching overdiagnosis and overtreatment</p>	<p>Room 309B Seminar - Brenda Wilson, Precision medicine and preventing overdiagnosis: concordance or paradox?</p>	
<p>Room 306AB</p>	<p>Closing Keynote</p>		

15:15 – 16:00	CHAIR – Hugo Viens Karsten Juhl Jørgensen – How to determine when to stop screening Thomas Lemke – Experiences with explaining overdiagnosis to the general public: screening healthy people, absolute versus relative risks, how this affected people's perception of health interventions John Brodersen – Introducing the 6 th Preventing Overdiagnosis conference in Copenhagen, Denmark: 20 – 22 August 2018
Hall 310 16:00	Coffee – safe journey home

ELEVATOR PITCHES 12:30 August 17th

Gilles Mignot	BN 05	Medicines to be removed from care: securing the market is too slow.
Roland Grad	BN 21	The POEMs of 2016 most consistent with principles of the Choosing Wisely campaign
Ahmad Sidiqi	BN 22	Evaluating Canadian medical students' interest and preparedness in learning and practicing high-value care and resource stewardship: A survey of student perceptions
Paul Hill	BN 28	Mutual Failure: Costs/Harms of Extra-Spinal Overdiagnosis from Joint Clinician & Radiologist Non-compliance with Societal Guidelines for MRIs of the Lumbar Spine
Luciana Garbayo	BN 25	On Conceiving and Re-Conceiving Overdiagnosis: From Ostensive, to Explicative and Stipulative Definitions and their Applications in Breast Cancer Research and Medical Care
Abi Sriharan	BN 11	Neuroscience of Behavioral Change

ELEVATOR PITCHES 12:30 August 19th

Ndeye Thiab Diouf	BN 35	Teaching Shared Decision Making to Family Medicine Residents: A Descriptive Study of a Web-Based Tutorial
Sian Taylor-Phillips	BN 42	Evaluating changes to screening programmes
Frederik Martiny	BN 44	Physical harm of colorectal cancer screening - a systematic review
Michael Akadiri	BN 34	The hidden dangers of the Surviving Sepsis Campaign: a hospital-based Quality Improvement Project (QIP) designed to quantify the extent of chest sepsis overdiagnosis and an intervention to alter clinicians' behaviour in order to observe a reduction in antibiotic over-use.
David Klemperer	BN 40	Reducing unwarranted variation in the use of left cardiac catheter on patients with chest pain and coronary heart disease. Design of the "Kardio-Studie"
Anne Kearney	BN 08	Overdiagnosis is a significant harm in population-based mammography screening

POSTERS

Aline Vidal	BN 01	Facing overdiagnosis in Primary Health Care in Brazil - a report of the experience of graduate medical students
David Warriner	BN 03	Choosing Wisely UK: lessons learned in launching a national Choosing Wisely initiative
Sheila Feit	BN 04	Clinical decision support tools as pathways to avoid care overuse
Guyène Thériault	BN 06	FROM UNDERSTANDING TO TAKING ACTION: EDUCATION AND ENGAGEMENT OF PHYSICIANS IN QUEBEC
Samanta Adomaviciute	BN 07	Shared decision making in a private healthcare sector
Godefroy Hardy St-Pierre	BN 09	La pertinence clinique en action: analyse stratégique de l'expérience du CHU de Québec
Shiva Nagaratnam	BN 10	Management of CKD in Primary Care Setting : A perspective from Northeast Ohio
Wen-Hsuan Hou	BN 12	Rasch analysis of the 9-item Shared Decision Making Questionnaire in women with breast cancer
Sheila Feit	BN 13	Shared decision-making and overuse of care
Sheila Feit	BN 14	Overtreatment vs. undertreatment: The REACH-VET initiative and optimized allocation of care
Caroline Morris	BN 16	Unexpected harms of preventative care: findings from an ethnography of CVD prevention in general practice
Brianne Wood	BN 17	"They should be asking us": a decisional needs assessment for women considering cervical cancer screening
Samira Abbasgholizadeh Rahimi	BN 18	A Theory-Based Web Survey to Identify Health Professionals' Intention to use a Decision Aid for Down Syndrome Screening
Jean-Simon Létourneau	BN 19	Adaptation of DECISION+, a training program in shared decision making on the use of antibiotics for acute respiratory infections in primary care, to the context of Emergency Department: a mixed methods study
Diana Stewart Hoover	BN 20	Preferences for Communicating about Breast Cancer Screening among Racially/Ethnically Diverse Older Women
Wilber Deck	BN 23	Overdiagnosis is a misnomer, and it is overcounting
Albert Prats-Urbe	BN 24	Chronic Kidney Disease in the elderly: beyond the glomerular filtrate ratio.
Isabelle Théberge	BN 26	Study of ductal carcinoma in situ in the Quebec breast cancer screening program between 1998 and 2015: ongoing project.
Ebtisam Elghblawi	BN 27	Under the theme of Overuse and Overmedicalisation and overdiagnosis.Title: Establishing a rapport and gaining trust
Sarah Tremaine	BN 29	Ethical Responses to Over Diagnosis of Papillary Thyroid Microcarcinoma
Nicolas Gillot	BN 30	Projet d'amélioration de la qualité des soins pour diminuer le recours aux examens barytés de déglutition chez l'adulte présentant une dysphagie oro-pharyngée et hospitalisé en soins aigus à l'hôpital de Hull (CISSSO)
Martin Bussièrès	BN 31	Magnetic resonance imaging in the diagnosis of acute shoulder disorders: overuse or misuse?
Martin Gariépy	BN 32	Measuring Overuse of Head CTs for Pediatric mTBI Patients in Two Canadian Emergency Departments (Phase I of the Wiki Head CT Patient Decision Aid Study)
Shahzad Shidfar	BN 33	Misdiagnosis, overdiagnosis and overtreatment of catheter associated urinary tract infection (CAUTI) in acute care hospitals: A No win situation
Hugues Vaillancourt	BN 36	An epistemological perspective to tackle challenges of overdiagnosis and overtreatment

Emily Ward	BN 37	Are multidisciplinary medication reviews in acute care the key to reducing polypharmacy in the elderly?
Bettina Engel	BN 38	Overuse of x-rays and medication in patients with gout at a university hospital emergency department
Manuela Klaschik	BN 39	Initiating an Overdiagnosis and Overtreatment-Discussion of thyroid diseases in Germany
Jenny Namkoong	BN 41	Choosing Wisely, beginning with Urine Cultures
Sigrid Brisson Nielsen	BN 43	Psychosocial Consequences of Overdiagnosis of Prostate Cancer
