

Day One Monday August 20th

07:30	Registration & Coffee Ground floor – Maersk Tower	
08:20 – 09:00	Niels K. Jerne Auditorium John Brodersen & Anders Beich – Welcome / Introduction Dr Francesca Racioppi – WHO co-sponsor Iona Heath - Why are we so afraid to be normal	
09:00 – 10:30	Niels K. Jerne Auditorium KN1 - De-implementation and the Challenge of Tackling Overdiagnosis at the Level of the Consultation CHAIR – Julian Treadwell Gisle Roksund - A Clinical Perspective of Overdiagnosis Tara Montgomery - Citizens in Crisis: Rebuilding Trust to Prevent Overdiagnosis Michael Baum - Thinking, fast and slow-strategies for the de-implementation of the breast cancer screening programmes	
10:30 – 11:00	Break / Posters First floor – Maersk Tower	
11:00 – 12:30	Niels K. Jerne Auditorium Parallel session – DEIMPLEMENTATION CHAIR – Karsten Jorgensen Diagnosis : Industry's royal road to manipulate modern medicine - Jacques Thivierge Shared decision making in goals-of-care conversations with elderly patients:concerns and limitations - Ariane Plaisance The effect of a test ordering software intervention on the prescription of unnecessary laboratory tests - a randomized controlled trial – Carlos Martins	Nielsine Nielsen Auditorium Parallel session – OTHER CHAIR – Alex Barratt Incidental detection of thyroid abnormalities on low-dose computed tomography in the National Lung Screening Trial – Barbara Dunn What does “medicine” mean and why does it matter? - Astridur Stefansdottir MEMORABLE: MEducation Management in Older people: Realist Approaches Based on Literature and Evaluation – Iain Maidment

	<p>Barriers and facilitators to adopting Choosing Wisely recommendations in physiotherapy – Joshua Zadro</p> <p>Thyroid hormone treatment and hormone levels among fibromyalgia patients in a Finnish health center -are there indications of overuse? - Aleksi Varinen</p> <p>Barriers and facilitators for de-implementation of unnecessary MRI's and arthroscopic surgeries in patients aged 50+ years with degenerative knee complaints among orthopaedic surgeons - Leti van Bodegom-Vos</p>		<p>Will the use of high sensitivity troponin result in overdiagnosis of myocardial infarction? – Jenny Doust</p> <p>Back to basics: overdiagnosis is about wrongful diagnosis – Bjorn Hofmann</p> <p>Volume and variation of low-value care practices in the Netherlands using health insurance claim data – Tjin Kool</p>	
11:00 – 12:30	<p>Meeting Room 1 Workshop</p> <p>PreventionPLUS: A Free Access Literature Awareness Portal That Surveilles High Quality Research and Guidelines to Inform the Harms and Benefits of Screening and Prevention Strategies in Healthcare – Eddy Lang</p>	<p>Henrik Dam Auditorium Seminar</p> <p>"Latest Evidence of Overdiagnosis in Pediatrics" - Ricardo Quinonez</p>	<p>Holst Auditorium Seminar</p> <p>Moving Beyond Flexner: Evolving Medical Education to Stop Promoting Overdiagnosis - Allen Shaughnessy</p>	<p>Meeting Room 2 Seminar</p> <p>A Beginners Guide</p> <p>Introduction to Overdiagnosis: Session One - PODC2018 Junior research Group</p>
12:30 – 13:30	<p>Lunch First floor – Maersk Tower</p>			
13:30 – 15:00	<p>Niels K. Jerne Auditorium Parallel session – DEIMPLEMENTATION CHAIR – Yu Wang</p> <p>A Cochrane review of strategies to increase adoption of the Ottawa Ankle Rules and reduce unnecessary imaging – Joshua Zadro</p> <p>The Risk Work of Overdiagnosis and Overtreatment – Natalie Armstrong</p> <p>Changes in prescription routines for treating hypothyroidism between 2001 and 2015 - a population-based study of 929,684 primary care patients in Copenhagen - Bjarke Medici</p> <p>Barriers and facilitators associated with uptake of the Dutch Choosing Wisely recommendation regarding MRI and knee arthroscopy among</p>		<p>Nielsine Nielsen Auditorium Parallel session - TURNING CITIZENS INTO PATIENTS CHAIR – Barry Kramer</p> <p>Use of regular feedback of ranked performance data to Family Medicine trainees in the Sultanate of Oman, to support a reduction in the overuse of resources - Robin Davidson</p> <p>Media coverage of the 2017 expanded definition of high blood pressure – and its risk of overdiagnosis: a cross sectional study - Ray Moynihan</p> <p>A randomised on-line survey to explore how disease labels, psychological traits and illness risk perceptions affect behavioural intentions - Rae Thomas</p>	

	<p>orthopaedic patients with degenerative knee complaints - Tessa Rietbergen</p> <p>The Overdiagnosis of Chest Sepsis in Children: A Quality Improvement Project - Rebecca Bradford-Duarte</p> <p>Evaluating the five wise choices in wound care: are nurses and physicians choosing wisely? – Eva Verkerk</p>	<p>Women's acceptance of overdiagnosis in breast cancer screening: can we assess harm-benefit trade-offs? - Anne Stiggelbout</p>	
13:30 – 15:00	<p>Holst Auditorium Workshop</p> <p>The Difficult Art of Un-Doing – John Brodersen, Iona Heath, Gisle Roksund, Harald Sundby, Elisabeth Swensen</p>	<p>Henrik Dam Auditorium Seminar</p> <p>Imaging asymptomatic people: a framework addressing clinical governance improvement and regulatory compliance - Maria del Rosario PEREZ</p>	<p>Meeting Room 2 Seminar</p> <p>Introduction to Overdiagnosis: Session Two - PODC2018 Junior research Group</p>
15:00 – 15:45	<p>Extended Break / Posters First floor – Maersk Tower</p>		
15:45 – 17:15	<p>Niels K. Jerne Auditorium</p> <p>KN2 – Turning Citizens Into Patients Unnecessarily CHAIR – Iona Heath Cécile Bour & Jean Doubovetzky - Mammography screening in France : real advances and doublespeaking Juan Pablo Brito - Patient-centred diagnosis Steve Woloshin & Lisa Schwartz - Disease awareness campaigns: Invitations to overdiagnosis</p>		
17:30 – 19:30	<p>17:30 Buses leave Panum Building - 18:00 Town Hall welcome drinks</p>		
<p>Day Two Tuesday August 21st</p>			
08:00 - 0900	<p>Registration Ground floor – Maersk Tower</p>		

	<p>Research In Conversation First floor – Maersk Tower</p>		
09:00 - 10:30	<p>Niels K. Jerne Auditorium Parallel session - DEIMPLEMENTATION CHAIR - Gemma Jacklyn</p> <p>A collective approach to recommendations for de-implementation or reform of a national screening program. A case study from the French civic and scientific inquiry into breast cancer screening – Alex Barratt</p> <p>Clinician, patient and general public beliefs about diagnostic imaging for low back pain: A qualitative evidence synthesis - Sweekriti Sharma</p> <p>Evaluating two decision aids for Australian men to support informed choice about prostate cancer screening – Kristen Pickles</p> <p>“Practicing Wisely”: a hands-on workshop to decrease overuse at the level of the consultation in primary care - Guylene Theriault</p> <p>Preventing overtreatment in older age by prioritising medicines – Kristie Weir</p> <p>Design and rationale for an implementation trial to improve care for low back pain in emergency departments – Chris Maher</p>	<p>Nielsine Nielsen Auditorium Parallel session – TURNING CITIZENS INTO PATIENTS CHAIR – Ray Moynihan</p> <p>Opportunity to reduce overdiagnosis and overtreatment of cervical abnormalities: de-intensifying the Australian National Cervical Screening Program - Rachael Dodd</p> <p>“People say it is dangerous”. Psychosocial Effects of Labelling People with Mild Hypertension: a Qualitative Study - János Valery Gyuricza</p> <p>Increasing prescription of opioid analgesics and neuropathic pain medicines for spinal pain in Australia - Stephanie Mathieson</p> <p>Human papillomavirus (HPV) infection of the anogenital tract detected through molecular tests leads to overtreatments and waste of resources - Carlo Liverani</p> <p>Psychosocial consequences of participating in a national colorectal cancer screening programme - Jessica Malmqvist</p>	<p>Holst Auditorium Parallel session – IMPACT OF POWER DRIVEN ODX CHAIR – Barry Kramer</p> <p>The introduction and demise of full body computed tomography (CT) scanning in Australia: implications for preventing overdiagnosis - Chris Degeling</p> <p>Variation in diagnostic test requests and outcomes: a preliminary metric for OpenPathology.net – Jack O’Sullivan</p> <p>Five years of EMA-approved systemic cancer therapies for solid tumours – a comparison of two thresholds for meaningful clinical benefit - Nicole Grössmann</p> <p>One year mortality from selected cancers: a dubious success of screening, Russia - Julia Ledovskikh & Vasilii Vlassov</p> <p>Overdiagnosis of low back pain - Adrian Traeger</p> <p>PHYSICIAN STRESS AND BURNOUT- CAUSE OR CONSEQUENCE OF OVERDIAGNOSIS? – Ananta Dave</p>
	<p>Meeting Room 1 Workshop</p> <p>Overdiagnosis and overtreatment of infectious diseases in general practice. How and where to break the endless loop? Overdiagnosis and overtreatment of infectious diseases in general practice. How and where to break the endless loop? - Gloria Cordoba</p>	<p>Henrik Dam Auditorium Seminar</p> <p>Thyroid cancer screening: the impact of overdiagnosis in different scenarios - Maria del Rosario PEREZ</p>	

10:30 – 11:00	Break / Posters First floor – Maersk Tower		
11:00 – 12:30	Niels K. Jerne Auditorium KN3 - Impact of Power Driven Overdiagnosis: The Role of Regulators & Health Authorities CHAIR - Fiona Godlee Søren Brostrøm - How can health authorities diminish and prevent overdiagnosis Salvatore Vacarella - <i>“Evidence for thyroid cancer overdiagnosis: WHO views”</i> Paul Glasziou - Impact of Power Driven Overdiagnosis: The Role of Regulators & Health Authorities		
12:30 – 14:00	Lunch First floor – Maersk Tower Niels K. Jerne Auditorium (13:00 – 14:00) How I got involved in Overdiagnosis CHAIR – Helen MacDonald		
14:00 – 15:30	Niels K. Jerne Auditorium Parallel session – OTHER CHAIR – Alex Barratt Evaluating the content of Choosing Wisely recommendations and the prevalence of interdisciplinary finger pointing – Joshua Zadro Overdiagnosis: a multi level problem - Bjorn Hofmann Systematic review of overdiagnosis in cervical cancer screening: How should we define overdiagnosis in cervical cancer screening? - Chisato Hamashima Primary health care education and Antibiotics overuse – Nawras Azzam	Nielsine Nielsen Auditorium Parallel session - OTHER CHAIR – Jenny Doust Trends in stage-specific breast cancer incidence in New South Wales, Australia: insights from 25 years of screening mammography - Gemma Jacklyn To PET or not to PET? - Andreea Badea Research misconduct can promote overtreatment. A multi-institutional case study from Japan, with implications for osteoporosis management with vitamin K - Alison Avenell The Impact of Prognostic Estimates on Surgical Decision Making in the Setting of Severe Traumatic Brain Injury: A Survey of Neurosurgeons - Marc D. Ryser	Holst Auditorium Parallel session – IMPACT OF POWER DRIVEN ODx CHAIR- Jack O'Sullivan Drivers of general health checks in China and the risk of overdiagnosis Drivers of general health checks in China and the risk of overdiagnosis – Yu Wang A new explanatory approach to overdiagnosis, based on the bubble theory, using osteoporosis as an example - Christoffe Bjerre Haase Systematic influences effect on participation rate in a fictional medical screening programme - Or Joseph Rahbek Antibiotics-impregnated calcium sulfate in surgery: A case of broader use of innovative medical practice - Marc Rhainds

	<p>The MedSafer pilot results: electronic deprescribing for hospitalized older adults with polypharmacy – Emily McDonald</p> <p>On the relevance of definitions: three conceptually challenging issues in overdiagnosis – Lynette Reid</p>	<p>A critical interpretive synthesis of recommendations for De-intensification and de-IMPLEmentation from population Screening (DIMPLES) - Stuart Nicholls</p> <p>Quality Indicators aiming to help Primary Care in Sweden to balance between what to do and what not to - Malin André</p>	<p>Evaluation of Strategies to Prevent Overdiagnosis of Melanocytic Skin Lesion Biopsies: A Decision Analysis – Anna Tosteson</p> <p>The impact of orthodontic treatment regulation in the German public health sector on the overuse of orthodontic services - Alexander Spassov</p>
	<p>Holst Auditorium Workshop</p> <p>Engaging the grass roots and the Ivory towers – Julian Treadwell</p>	<p>Meeting Room 1 Workshop</p> <p>Reporting lab results: the cause of, and the solution to, the overdiagnosis problem - James McCormack</p>	<p>Meeting Room 2 Workshop</p> <p>Good doctoring: 'Core writings' as an antidote to medical overactivity? - Stefan Hjørleifsson</p>
15:30 – 16:00	<p>Break - B/ Posters First floor – Maersk Tower</p>		
16:00 – 17:30	<p>Niels K. Jerne Auditorium</p> <p>KN4 - Overdiagnosis 2.0 (Technology) CHAIR – Carl Heneghan</p> <p>Henrik Vogt - A new era of overdiagnosis: Big data and precision medicine Claus Ekstrøm - Big data: the inevitable statistical problem with overdiagnosis Johnny Kung - Engaging diverse communities on the benefits and implications of genetic diagnosis</p>		
18:15	<p>18:20 – 18:30 – 18:40 Boat trip (drop off at Toldboden) 19:30 Dinner Party - Toldboden</p>		
<p>Day Three Wednesday August 22nd</p>			
08:00 – 09:30	<p>Registration Ground floor – Maersk Tower</p>		

	Research In Conversation First floor – Maersk Tower			
08:00 – 09:30	Meeting Room 1 Workshop Policy and practice in the European countries regarding overdiagnosis and quaternary prevention - Johann Agust Sigurdsson	Meeting Room 2 Workshop How do we engage new health care providers (students and new practitioners) in initiatives to reduce overdiagnosis? - Frederik Martiny	Holst Auditorium Seminar Definition of multimorbidity and risk of overdiagnosis.- Anne Møller	
09:30 – 11:00	Niels K. Jerne Auditorium KN5 - Psychiatry and Overdiagnosis CAHIR – Niels Saxtrup Allen Frances - Confusing Mad With Sad & Bad" Anders Petersen - Psychiatry and overdiagnosis: a sociological perspective Olga Runciman - Patient/citizen perspective - "stickiness" of psychiatric diagnoses: once you have one, you often cannot "unhave it" - Overdiagnosis of mental health conditions in everyday practise			
11:00 – 11:30	Break / Posters First floor – Maersk Tower			
11:30 – 13:00	Niels K. Jerne Auditorium Parallel session – DEIMPLEMENTATION CHAIR – Karsten Jorgensen The STARS Back Pain App - using real time emergency department data to address overdiagnosis - Macedo Gustavo Impact of Full-Field Digital Mammography versus Film-Screen Mammography: Systematic Review - Alexandra Barratt	Nielsine Nielsen Auditorium Parallel session - TURNING CITIZENS INTO PATIENTS CHAIR – Tara Montgomery Mono-criterial thresholds are a likely source of over-testing and over-treatment - Mette Kjer Kaltoft Decision Support and Knowledge Translation Tools to Highlight the Benefits and Harms of Screening: An Analysis of Online Access and Dissemination of the Canadian	Henrik Dam Auditorium Parallel session – PHSCHIATRY & ODx CHAIR – Steve Woloshin & Lisa Schwartz MEDREV: feasibility study of a pharmacy de-prescribing and health psychology intervention to improve care for people with dementia with BPSD in care homes - Ian Maidment	Holst Auditorium Parallel session –THE ROLE OF RISK FACTORS & IMPACT OF POWER DRIVEN ODx CHAIR – Ray Moynihan Incremental benefits and harms of the 2017 American College of Cardiology/American Heart Association High Blood Pressure Guideline – Katy Bell Cause of death among lung cancer patients in the National

	<p>Innovative approaches to proactively identify members with special medical needs - Milan Mrekaj</p> <p>Do nudge-type interventions change clinician treatment, screening, and testing behaviours?: a systematic review - Mary O'Keeffe</p>	<p>Task Force for Preventive Healthcare Resources - Eddy Lang</p> <p>Loss of insurability: an inadequately elucidated harm of screening and overdiagnosis - James Dickinson</p> <p>Challenges and uncertainties regarding Polycystic Ovary Syndrome (PCOS) and the potential for overdiagnosis: Clinicians' views and experiences – Tessa Copp</p> <p>Pharmacovigilance and participatory medicine through social media – we are still not there - Fran Quattri</p> <p>Reducing inappropriate antibiotic use among infants through an educational intervention targeting new parents - Jette Nygaard Jensen</p>	<p>Psychiatrization of Society: A Wake-up Call for Debate - Timo Beeker</p> <p>Overestimation of depression prevalence in meta-analyses via the inclusion of primary studies that assessed depression using screening tools or rating scales rather than validated diagnostic interviews - Brooke Levis</p> <p>Applying the Checklist for Modifying the Definition of Disease to Attention Deficit/Hyperactivity Disorder (ADHD) age of onset criterion (AOC) – Rae Thomas</p> <p>Drug treatment of ADHD in children and adolescents – tenuous scientific basis – Charlotte Lunde</p> <p>Study doping: Prevalence of psychostimulants use among university students in the Netherlands - Huib van Dis</p>	<p>Lung Screening Trial: Competing causes of death as a hallmark of overdiagnosis - Danielle Durham</p> <p>Overinvestigation in the elderly? The role of guidelines on emergency intracranial imaging: Experience from a DGH - Roshini Kulanthaivelu</p> <p>Is there really an epidemic of vitamin D deficiency? An investigation of the evidence base for vitamin D supplementation – Alison Avenell</p> <p>The Impact of a Regulatory Nudge on the Overuse of Low Dose Codeine in Manitoba, Canada – Jamie Falk</p> <p>The use of theories and frameworks to understand and address the reduction of low-value healthcare practices: a scoping review - Gillian Elliott</p>
	<p>Meeting Room 1 Workshop</p> <p>Overdiagnosis of depression: Clinical, Practical & Cost implications - Niall McLaren</p>	<p>Meeting Room 2 Seminar</p> <p>Why is it so hard to stop overuse? - Eva Verkerk</p>		
<p>13:00 – 14:00</p>	<p>Lunch First floor – Maersk Tower</p>			
<p>14:00 – 15:30</p>	<p>Niels K. Jerne Auditorium Parallel session – DEIMPLEMENTATION CHAIR – Karsten Jorgensen</p>	<p>Nielsine Nielsen Auditorium Parallel session - TURNING CITIZENS INTO PATIENTS / PHSCHIATRY & ODx CHAIR – Niels Saxtrup</p>	<p>Henrik Dam Auditorium Parallel session – OTHER CHAIR – Barry Kramer</p>	<p>Holst Auditorium Parallel session – THE ROLE OF RISK FACTORS CHAIR – Carl Heneghan</p>

	<p>De-Implementing Unconsidered Cancer Screening: Primum non Nocere – Ronald Adler</p> <p>Overdiagnosis and error in general practice: the need of a new approach – Sergio Minue</p> <p>The Imaging Learning Network (ILN): a healthcare provider - industry collaboration to reduce inappropriate imaging through clinical decision support – Jonathan Darer</p> <p>Implementing tools for reduction of overdiagnosis and overtreatment in clinical practice - position papers – Ronene BareKet</p> <p>Screening and breast cancer mortality and in São Paulo State, Brazil: an ecological analysis – Simone Diniz</p> <p>Reducing over investigation in suspected PE - William Peagam</p>	<p>Under- versus overdiagnosis: Exploring the benefits and harms of a PCOS label and its impact on women's psychosocial wellbeing, lifestyle and behaviour - Tessa Copp</p> <p>Sarcopenia: A case study in how the phenomenon of overdiagnosis is generated - Jacob Bülow</p> <p>Widening Disease Definitions in Gestational Diabetes: an evaluation of changing guidelines - Christiana Naaktgeboren</p> <p>The evaluation of a breast cancer screening decision aid in the community setting - Kimberly Gibbons</p> <p>Defining Overdiagnosis of Mental Health Disorders: Secondary Analysis of an Overdiagnosis Scoping Review - Kimberly Turner</p>	<p>Overdiagnosis, overtreatment and low-value care in physiotherapy: a scoping review – Joshua Zadro</p> <p>A Tale of Two Studies: Diagnostic algorithms and clinical practice guidelines minimize overdiagnosis and overtreatment and maximize survival in lung cancer screening - Frederic Grannis</p> <p>Preferences for papillary thyroid cancer management and the impact of terminology: a discrete choice experiment - Kirsten Howard</p> <p>Can We Detect Overdiagnosis Early? Exploring indicators of possible overdiagnosis outside cancer screening contexts – Katy Bell</p> <p>Evaluation of a Choosing Wisely Canada initiative to reduce unnecessary radiology and laboratory testing in the emergency department - Janessa Griffith</p> <p>Natural History of Ductal Carcinoma in Situ in the Absence of Locoregional Treatment - Marc D. Ryser</p>	<p>Statins for the primary prevention of cardiovascular disease: a simulation of eligibility, costs, patient preferences and number-needed-to-treat in the context of changing clinical guidelines - Paula Byrne</p> <p>Physicians' perceptions of inappropriate laboratory testing in clinically admitted patients - Bram Vrijzen</p> <p>No benefit of additional care for 'high-risk' patients with acute low back pain: The PREVENT randomized, placebo-controlled trial - Adrian Traeger</p> <p>Risk factors associated with potentially serious incidental findings and with serious final diagnoses on multimodal imaging in the UK Biobank Imaging Study - Lorna Gibson</p> <p>Are we overestimating or underestimating cardiovascular events risk? The impact of using the American, British and European guidelines on cardiovascular risk assessment - Carlos Brotons</p>
<p>14:00 – 15:30</p>	<p>Meeting Room 2 Seminar</p> <p>What is the relationship between deviations, abnormalities, risk factors, pathologies and overdiagnosis? - Jessica Malmqvist</p>			

15:30 – 16:00	Break First floor – Maersk Tower
16:00 – 17:30	<p>Niels K. Jerne Auditorium</p> <p>KN6 - Overdiagnosis in Risk Prevention: Cardiovascular CHAIR – Jenny Doust Hálfadán Pétursson - The tsunami of overdiagnosis in cardiovascular risk in general practice Torben Jørgensen - General health check to prevent cardiovascular diseases (CVD) Paul Whelton - The 2017 American College of Cardiology/American Heart Association Blood Pressure Guideline: Major Recommendations, Rationale, and Clinical Implications.</p>
17:30 – 18:00	Closing Comments – John Brodersen Intro to PODC 2019 – Ray Moynihan Safe journey home
