

08:00-10:00	REGISTRATION		
10:00-11:30	KEYNOTE SESSION 1 – Lecture Theatre 1 CHAIR: Fiona Godlee		
10:00	K1 Iona Heath - Overdiagnosis and the Individual Patient		
10:30	K2 Sir John Burn - The Highs and Lows of Genetic Prediction		
11:00	K3 Jack Wennberg – Is More Better?		
11:30-11:45	TEA AND COFFEE BREAK		
11:45-13:15	PARALLEL SESSIONS		
	Session 1A (L1) Screening and Overdiagnosis 1 Session Chair: John Brodersen	Session 1B (L2) Case Studies in Overdiagnosis Session Chair: Iona Heath	Session 1C (L3) Mental Health Session Chair: Allen Frances
11:45 – 12:00	Abstract #6 Overdiagnosis of Familial Mediterranean Fever by Genetic Screening in Adults - <i>Cem Sungur</i>	Abstract #38 Overdiagnosis and dangerous overtreatment of irritable infants with "reflux." A rapidly emerging non illness with a case study of an effective multi modal educational solution - <i>Les Toop</i>	Abstract #35 Selling Depression and Antidepressants: The Mental Health Foundation of Australia's National Depression Awareness Campaign - <i>Melissa Raven</i>
12:00 – 12:15	Abstract #59 How appropriately are we screening osteoporosis in 45 to 64 year old women?: a cross-sectional study - <i>María de la Nieves Ganiele, Sergio Terrasa & Karin Kopitowski</i>	Abstract #70 Difficulties in Estimating Overdiagnosis: The Special Case of Melanoma - <i>Barbara Dunn</i>	Abstract #21 Medicalizing children's behaviour as Attention Deficit Hyperactive Disorder (ADHD): a study highlighting the social processes at work in mis-diagnosis - <i>Gloria Wright</i>
12:15 – 12:30	Abstract #170 Making sense of diagnostic uncertainty after newborn screening for cystic fibrosis - <i>Robin Hayeems</i>	Abstract #119 What's in a name? The influence of a disease label on parent's decision to medicate a colicky infant - <i>Laura Scherer</i>	Abstract #175 Psychopathology and dynamics within the doctor-patient dyad - their potential as drivers of overdiagnosis - <i>Rhonda Buskell</i>
12:30 – 12:45	Abstract #23 Conceptualizing Overdiagnosis in Cancer Screening - <i>Pamela Marcus</i>		
12:45 – 13:00	Abstract #92 Overdiagnosis in Lung Cancer Screening with Chest X-Ray: Exploring what Appears to be Conflicting Findings in the Mayo Lung Project (MLP) and Prostate, Lung, Colorectal and Ovarian (PLCO) Cancer Screening Trial - <i>Pamela Marcus</i>		
11:45-13:15	WORKSHOPS		
	Session 1D - L4	Session 1E - L5	Session 1F - L6
	Abstract # 79 Title: Getting clearer on different types of overdiagnosis - <i>Wendy</i>	Abstract # 146 Dangerous Caring: Examining drivers for overtreatment and its	Abstract # 159 Title: Working backwards in orthopaedics – where routine

	Rogers	consequences, evidence from interventions to counteract this, discussion of potential solutions at policy and clinical levels and how involvement of patients and families might facilitate change - Dee Mangin	treatments have been questioned and diagnosis become uncertain - Teppo Järvinen
13:15-14:00	LUNCH & POSTER SESSIONS		
14:00-15:30	PARALLEL SESSIONS		
	Session 2A (L1) Screening and Overdiagnosis 2 Session Chair: David Henry	Session 2B (L2) Public Professional Views on Overdiagnosis Session Chair: Paul Glasziou	Session 2C (L3) Breast Cancer Information and Guidelines Session Chair: Jean-Claude Salomon
14:00 – 14:15	Abstract #142 The Effects of Shared Decision Making on Cancer Screening: A Systematic Review - Sarah Lillie	Abstract #167 Patients' Knowledge about Screening and Overdiagnosis - Stacey Sheridan	Abstract #40 Uninformative Genetic Testing for those at High Risk of Breast Cancer - Kendra Flores
14:15 – 14:30	Abstract #151 A Systematic Review of the Psychological Harms of Screening: The Evidence We Need vs. the Evidence We Have - Colleen Barclay	Abstract #30 A national survey of awareness and attitudes about Overdiagnosis - Ray Moynihan	Abstract #144 Information on overdiagnosis in breast screening: a survey study of women's responses - Jo Waller
14:30 – 14:45	Abstract #45 High Value Cancer Screening: A Conceptual Framework and Recommendations to Improve Cancer Screening Value and Reduce Overdiagnosis and Overtreatment - Timothy Wilt	Abstract #135 How much overdiagnosis are people willing to accept in screening for breast cancer, prostate cancer and colorectal cancer? - Ann Van den Briel	Abstract #169 Information about the benefit and harms of mammography screening provided to women - Gemma Jacklyn
14:45 – 15:00	Abstract #44 Reconsidering primary HPV testing in cervical cancer screening in European countries - Carlo Liverani	Abstract #114 Taming Frankenstein's monster: how doctors have begun talking about medicalization - Louisa Polak	Abstract #90 Overdetection in breast cancer screening: randomised controlled trial (RCT) of an information booklet to support informed choice - Jolyn Hersch
15:00 – 15:15	Abstract #147 Attitudes and preferences towards screening for dementia: a systematic review of the literature - Louise LaFortune	Abstract #56 Practice variation in common fracture presentations: A survey of orthopaedic surgeons - Ian Harris	Abstract #112 Dialing Back on Breast Cancer Screening: Impact of Guidelines Changes on Medicare Beneficiaries Enrolled in Private Plans and Traditional Fee-For-Service Medicare - John Hsu
14:00-15:30	WORKSHOPS		
	Session 2D (L4)	Session 2E (L5)	Session 2F (L6)
	Abstract # 177 Title: Nailing the definition of overdiagnosis - Jenny Doust	Abstract # 153 Title: Initiating discussion about unnecessary tests before entering the doctor's office: An educational video campaign - Ronen Bareket	Abstract # 29 Title: Overdiagnosis and overtreatment of respiratory tract infections in primary care By GRIN (General practice Respiratory Infections Network) - Theo Verheij
15:30-16:00	TEA AND COFFEE BREAK		

16:00-17:30			
PARALLEL SESSIONS			
	Session 3A (L1) Breast Cancer Screening Session Chair: Alex Barratt	Session 3B (L2) Guidelines, Algorithms and Prevention Session Chair: Barry Kramer	Session 3C (L3) Overuse and Pharmaceuticals Session Chair: Carl Heneghan
16:00 – 16:15	Abstract #91 DCIS grade distribution in 4,232 screened and non-screened women and estimated risk of overdiagnosis in breast cancer screening- a model of progression - <i>Paula van Luijt</i>	Abstract #87 Guideline Driven Overtreatment in Primary Care - an update - <i>Julian Treadwell</i>	Abstract #107 Overuse of antibiotic prophylaxis among surgical oncology patients in Japan - <i>Momoko Iwamoto</i>
16:15 – 16:30	Abstract #100 Impact of diagnostic invasiveness on the psychosocial consequences of false-positive mammography: cohort study - <i>Bruno Heleno</i>	Abstract #118 Predictive risk algorithms as a driver of overdiagnosis - current status and what next? - <i>Halfdan Petursson</i>	Abstract #102 Overuse of antiemetic drugs in cancer patients receiving chemotherapy with minimal and low emetic risk in Japan - <i>Ayako Okuyama</i>
16:30 – 16:45	Abstract #133 Overdiagnosis of mammographic screening studied in birth cohorts - <i>Dorien Ripping</i>	Abstract #130 The use of cardiac troponin measurements in the clinical setting and development of an algorithm to diagnose ischemic cardiac events - <i>Janne Cadamuro</i>	Abstract #148 Blockbuster diagnostics? The pharmaceuticalisation of the IVD industry - <i>Stuart Hogarth</i>
16:45 – 17:00	Abstract #110 Mammography screening: Estimating over-diagnosis and dealing with denial and public incomprehension - <i>Cornelia J. Baines</i>	Abstract #176 A Population-Based Nationwide Cross-Sectional Study on Preventive Health Services Utilization in Portugal-What Services (and Frequencies) Are Deemed Necessary by Patients? - <i>Carlos Martins</i>	Abstract #41 Pharmaceutical industry behaviour and the Trans Pacific Partnership Agreement- Increased risk for overtreatment - <i>M Erik Monasterio</i>
17:00 – 17:15	Abstract #149 Natural history of Breast Cancers Detected in the Danish Mammography Screening Programme: a Cohort Study - <i>Per-Henrik Zahl</i>		
16:00-17:30			
WORKSHOPS			
	Session 3D L4	Session 3E L5	Session 3F L6
	Abstract # 128 Title: The price of increased productivity: does psychiatry work as tool for exclusion of the young? <i>Gisle Roksund</i>	Abstract # 131 Title: Limiting the medicalization of sadness in old age. A conceptual framework to distinguish between meaningful sadness and counterproductive depression among the old - <i>Stefan Hjörleifsson</i>	Abstract # 143 Title: Advanced Evidence Based Diagnosis: ROC curves, Interval Likelihood Ratios, Bias in test accuracy studies and the use of screening tests – <i>Dan Mayer</i>

TUESDAY, 16 SEPTEMBER 2014

08:00-09:00	REGISTRATION
09:00-10:30	KEYNOTE SESSION 2 – Lecture Theatre 1

	CHAIR: Carl Heneghan			
09:00	K4 John Yudkin - Overdiagnosis and the Epidemic of Prediabetes			
09:30	K5 Rustam Al-Shahi Salman - Accidental Over-Diagnosis on Brain Magnetic Resonance Imaging (MRI)			
10:00	K6 David Haslam - Too Much of a Good Thing?			
10:30-11:00	TEA AND COFFEE BREAK			
11:00-12:30	PARALLEL SESSIONS			
	Session 4A (L1) Prostate Cancer Screening Session Chair: David Henry	Session 4B (L2) Theory and reflection on overdiagnosis Session Chair: Jenny Doust	Session 4C (L3) Overuse Session Chair: Brian Nicholson & Jack O'Sullivan	
11:00 – 11:15	Abstract #66 Screening for prostate cancer in New Zealand - a policy to increase overdiagnosis. A cautionary tale and a proposal to avoid similar failures - <i>Ben Hudson</i>	Abstract #165 Total health: The holistic overdiagnosis of Systems (P4) Medicine - <i>Henrik Vogt</i>	Abstract #134 Update in Medical Overuse - <i>Daniel Morgan</i>	
11:15 – 11:30	Abstract #83 Evolution (2006-2013) of the rate of indication of PSA screening in primary care, and association with rate of prostatectomies and mortality by prostate cancer in the Basque Country - <i>Felipe Aizpuru</i>	Abstract #42 The ethics of overdiagnosis: different sources and different remedies - <i>Wendy Rogers</i>	Abstract #137 Doctor, could this be "pink eye"? How a disease label influences parents' interest in antibiotics for treatment of conjunctivitis in children - <i>Beth Tarini</i>	
11:30 – 11:45	Abstract #20 Deliberative democracy for cancer screening decisions: the effect of a community jury on men's knowledge and intentions to participate in PSA screening - <i>Rae Thomas</i>	Abstract #62 Conceptualising Over-diagnosis I: Describing Over-diagnosis - <i>Stacy Carter</i>	Abstract #82 Measuring Overuse of Medical Procedures Using Health Insurance Claims Data - <i>Junlian Tong</i>	
11:45 – 12:00	Abstract #101 How important is Overdiagnosis to members of the public offered the chance to include it in an online multi-criteria decision aid for prostate cancer screening? - <i>Mette Kjer Kaltoft</i>	Abstract #63 Conceptualising Over-diagnosis II: Normatively Evaluating Over-diagnosis - <i>Stacy Carter</i>	Abstract #37 Overstaging leading to overtreatment: the example of thyroid cancer - <i>Stephen Hall</i>	
12:00 – 12:15	Abstract #67 Approaches to PSA testing in Australian general practice: a new empirical analysis of Overdiagnosis and the personal burden experienced by doctors – <i>Kristen Pickles</i>			
11:00-12:30	WORKSHOPS			
	Session 4D (L4)	Session 4E (L5)	Session 4F (L6)	Session 4G (CLR 4)
	Abstract #103	Abstract # 98	Abstract # 120	Abstract # 22

	Title: Generalist solutions to Overdiagnosis: lighting the touch paper - Joanne Reeve	Title: Communicating about Overdiagnosis: A Symposium of Current Research- Kirsten McCaffery	Title: A Rational Approach to Cancer Screening: Communication Strategies that Reduce Overdiagnosis - Ronald Adler	Title: Research Directions for Molecular and Cellular Characterization of Cancer Overdiagnosis - Barnett Kramer
12:30-14:00	LUNCH & GUIDED POSTER SESSIONS (13:00 – 14:00)			
14:00-15:30	PARALLEL SESSIONS			
	Session 5A (L1) Cancer and Overdiagnosis Session Chair: Barry Kramer	Session 5B (L2) Clinical Matters Session Chair: Carl Heneghan	Session 5C (L3) Clinical Matters 2 Session Chair: Julian Treadwell	
14:00 – 14:15	Abstract #14 Access and the Overdiagnosis of thyroid cancer - <i>Stephen Hall</i>	Abstract #152 Overdiagnosis of chronic kidney disease from routine monitoring of glomerular filtration rate in primary care, a simulation study - <i>Jason Oke</i>	Abstract #172 "No Practitioner of Medicine Should Be without a Sphygmomanometer": One Hundred Years of Hypertension – <i>Stephen Martin</i>	
14:15 – 14:30	Abstract #71 Overtesting for Cervical Cancer: Patterns and trends from a national reference laboratory in the United States - <i>Brian Jackson</i>	Abstract #140 Elderly Hip Fractures: Fragile Bones or a Frail Prevention Strategy? - <i>Teppo Järvinen</i>	Abstract #31 General Practice Wound Care and the Three little pigs- A story of too much huff and puff - <i>Ian Charlton</i>	
14:30 – 14:45	Abstract #111 HPV vaccination and future cervical cancer screening - a collision between primary and secondary prevention - <i>Mie Sara Hestbech</i>	Abstract #49 Harm Associated with Inpatient Workup of Syncope in Low Risk Patients - <i>Jenna Canzoniero</i>	Abstract #166 A qualitative study of GP attitudes towards discontinuing statins - <i>Michael Nixon</i>	
14:45 – 15:00	Abstract #156 Overdiagnosis of borderline ovarian tumours in ovarian cancer screening: the UK Collaborative Trial of Ovarian Cancer Screening (UKTOCS) experience - <i>Aleksandra Gentry-Maharaj</i>	Abstract #89 Mitigating clinician and community concerns about children's flatfeet, intoed gait, or knock-knees/bow-legs – a simple approach of when to do what - <i>Angela Evans</i>	Abstract #163 Interpretation through Hypostatization? Dealing with the challenge named Medically Unexplained Symptoms (MUS) - <i>Anna Luise Kirkengen</i>	
15:00 – 15:30	Abstract #27 Priorities and concerns among men presented with information on the benefits and harms of PSA testing: a qualitative analysis of community jury deliberations - <i>Lucie Rychetnik</i>			
14:00-15:30	WORKSHOPS			
	Session 5D (L4)	Session 5E (L5)	Session 5F (L6)	
	Abstract # 155 Title: If we want to diagnose less, what are the alternatives? Exploratory workshop - William House	Abstract # 96 Title: Stepped Diagnosis as a strategy to address diagnostic inflation of childhood mental and developmental health problems - Anton Miller & Laura Batstra	Abstract # 127 Title: Prevalence of overdiagnosis in cancer screening: methods and implications - Alexandra Barratt, Per-Henrik Zahl, Harry de Koning and Pam Marcus	
15:30-16:00	CLOSE WITH TEA AND COFFEE BREAK, INFO DESK OPEN			

	FREE TIME
19:00	DINNER – DANCING

WEDNESDAY, 17 SEPTEMBER 2014

08:00-09:00	REGISTRATION		
09:00-10:30	KEYNOTE SESSION 3 – Lecture Theatre 1 CHAIR: Iona Heath		
09:00	K7 Margaret McCartney - Professional, Compassionate, Evidence-Based General Practice, and the Ways I Fail.		
09:30	K8 Linn Getz - On Crisis, Hubris and the Future of Medicalisation Or: You ain't seen nothin' yet		
10:00	K9 Junod Bernard - Fatal Side Effects and Cancer Induced by Radiotherapy of Overdiagnosed Breast Cancer in France		
10:30-11:00	TEA AND COFFEE BREAK		
11:00-12:30	PARALLEL SESSIONS		
	Session 6A (L1) Responses in policy and practise Session Chair: Steve Woloshin & Lisa Schwartz	Session 6B (L2) Communication and Overdiagnosis Session Chair: Kirsten McCaffrey & Tessa Richards	Session 6C (L3) Overdiagnosis and Economics Session Chair: Jenny Doust
11:00 – 11:15	Abstract #55 Deliberative methods: a tool for addressing overdiagnosis? - <i>Chris Degeling, with Lucie Rychetnik</i>	Abstract #76 Communicating Overdiagnosis through Comics - <i>Luca Iaboli</i>	Abstract #52 Evidence of relative over-provision of acute services to the most privileged as a primary cause of financial over-parity in a large health board area characterised by concentrated social deprivation: The interface of the financial allocation formula and hospital activity analyses in Scotland - <i>Helene Irvine</i>
11:15- 11:30	Abstract #39 Management of risk in primary care - can a new model help avoid over-treatment? - <i>Ulrica Dohnhammar</i>	Abstract #173 Communication style and models of decision-making within the clinical consultation: contributors to overdiagnosis? - <i>Frances Wilson</i>	Abstract #168 Health economics of screening programmes: failing to include harms from overdiagnosis and overtreatment? - <i>James Raftery, Dr Rebecca Kandiyali</i>
11:30 – 11:45	Abstract #57 Preventing Overdiagnosis : an Exercise in Mobilization - the Québec Experience - <i>Laurent Marcoux</i>	Abstract #122 Five barriers to communicating overdiagnosis topics to health consumers and evidence-based strategies to overcome them - <i>Teresa Carr</i>	Abstract #28 Overdiagnosis as overconsumption: health care's contribution to "uneconomic growth"? - <i>Martin Hensher</i>
11:45 – 12:00	Abstract #16 The Balint Movement: Historical Answers to Questions of Overdiagnosis - <i>Gwyn Carney</i>	Abstract #178 Consumer Reports Translates BMJ Overdiagnosis Papers for the General Public: What We've Learned So Far – <i>Lisa Gill</i>	Abstract #132 Adding value to health care through discontinuation of low-value practices: ESSENCIAL Project in Catalonia - <i>Anna Kotzeva</i>

12:00 – 12:15	Abstract #80 Over-diagnosis - A Personal Perspective from Three Different Angles: Payer, Clinician, and Patient - <i>Aaron Lai</i>	Abstract #141 Patient Perspectives about the Benefits and Harms of Prostate Cancer Screening and Reactions to New Prostate Cancer Screening Guidelines - <i>Melissa Partin</i>	Abstract #25 Defunding overdiagnosis: Bottom-up reform to improve appropriateness in Northern Sydney Local Health District, Australia - <i>Philip Hoyle</i>
11:00-12:30	WORKSHOPS		
	Session 6D (L4)	Session 6E (L5)	Session 6F (L6)
	Abstract # 84 Title: General Practitioners: What to do next? - Julian Treadwell & Margaret McCartney	Abstract: 178 Title: Teaching It: Alex Fitzgerald-Barron	Abstract # 138 Title: Measuring overdiagnosis by active surveillance of tumors suspected by mammography - Bernard Junod
12:30-13:30	LUNCH		
13:30-14:30	CLOSING KEYNOTE – Lecture Theatre 1 CHAIR: Paul Glasziou		
13:30- 14:00	K10 Alexandra Barratt - Overdiagnosis in screening: 45 years and still in the making		
14:00 – 14:30	K11 Barry Kramer - Here We Are and Here We Go"—Moving Forward in a Maturing Field		
14:30-15:30	SAFE JOURNEY HOME
