

**Day 1 – Tuesday 20<sup>th</sup> September**

07:30 09:00	Registration – Entrance A						
08:45 09:00	Room 111/112 - Introduction Toni Dedeu - Agency for Health Quality and Assessment of Catalonia (AQuAS)						
09:00 10.30	Room 111/112 - Wider Perspectives on Overdiagnosis <b>CHAIR – Iona Heath</b> Baruch Fischhoff – The Public Bulwark Nikola Biller Adorno – Overdiagnosis in the name of the patient – breaking the vicious circle Salvador Peiro – Title TBC						
10:30 11:00	Break - FOYER						
11:00 12:40	<p><b>Room 129</b></p> <p><b>Widening disease definitions that cause overdiagnosis</b></p> <p><b>CHAIR:</b> David Klemperer</p> <p><b>Oliver Senn:</b> Appropriateness of bone density measurements in Switzerland: a cross-sectional study</p> <p><b>Benjamin Cook:</b> Are Racial/Ethnic Disparities in Youth Psychotropic Medication Due to Overuse by Whites? The Relationship Between Psychological Impairment, Race/Ethnicity and Youth Psychotropic Medication</p> <p><b>Chisato Hamashima:</b> Overdiagnosis on endoscopic screening for gastric cancer in Japan</p> <p><b>Robert Gelfand:</b> Overdiagnosis of Overweight and Obesity: Cultural Dogma Trumps Evidence-Based Medicine</p> <p><b>Barbara Mintzes:</b> Inadequate breast milk supply, a new epidemic?</p>	<p><b>Room 130</b></p> <p><b>Genomics – unlimited potential for overdiagnosis? / Interventions to mitigate harms of Overdiagnosis</b></p> <p><b>CHAIR:</b> John Brodersen</p> <p><b>Corine Mouton Dorey:</b> Overdiagnosis and Big Data: An Ethical Perspective</p> <p><b>Pierre Massion:</b> Molecular characterization for early stage lung adenocarcinoma</p> <p><b>Jodie Ingles:</b> Impact of a positive hypertrophic cardiomyopathy gene result in asymptomatic family members: exploring potential for overdiagnosis due to genetic testing</p> <p><b>Per Henrik Zahl:</b> Overdiagnosis of Clinically Irrelevant Cancers</p> <p><b>Henrik Vogt:</b> Future screening: Predictive, preventive, personalized and participatory (P4) medicine meets a proactive quaternary (P4) prevention – an examination of visions and early results</p>	<p><b>Room 131</b></p> <p><b>Overuse and Economic consequences of overdiagnosis</b></p> <p><b>CHAIR:</b> Anna Garcia-Altès</p> <p><b>Jessica Malmqvist:</b> Costs of the Danish national colorectal cancer screening programme</p> <p><b>Paul Levin:</b> Penny Wise, Pound Foolish: The fifteen minute visit</p> <p><b>Claudia Wild:</b> Appropriateness of MRI in Austria: identification of overuse</p> <p><b>Samanta Adomaviciute:</b> Evaluation of the impact of Medical and Policy reviews in tackling overtreatment in musculoskeletal conditions using a predictive modelling approach</p> <p><b>Valentina Rapuano:</b> Member Risk Model: a method to reduce over utilisation by predicting high cost claimants.</p>	<p><b>Room 132</b></p> <p><b>Cultural and existential drivers of overdiagnosis / Other</b></p> <p><b>CHAIR:</b> Barry Kramer</p> <p><b>Pedro Pinto:</b> Attitudes of Portuguese women concerning breast cancer screening exams - A Population-Based Nationwide Cross-Sectional Study</p> <p><b>Chris Degeling:</b> Involving the Public in Preventing Overdiagnosis – community juries reason about the potential benefits and risks of PSA screening for prostate cancer</p> <p><b>Susann Schaffer:</b> Antibiotics for acute cough in general practice. Description of differences between high and low prescribers using claims data.</p> <p><b>Jack Bedeman:</b> Living on benefits: How cancer screening is portrayed in the UK national press Running title: 'Overdiagnosis coverage in the media'</p> <p><b>Phillipe Autier:</b> Mammography screening effectiveness and overdiagnosis in the Netherlands</p>	<p><b>Room 133</b></p> <p><b>Interventions to mitigate harms of Overdiagnosis</b></p> <p><b>CHAIR:</b> Russ Harris</p> <p><b>James Rickett:</b> An Innovative Patient-Centered Precertification and Data Collection Process for Total Joint Replacements</p> <p><b>Gaby Sroczynski:</b> Reducing Overtreatment associated with Overdiagnosis in Cervical Cancer Screening in Austria - A Decision-Analytic Benefit-Harm Analysis.</p> <p><b>Kathrin Schlöbner:</b> A German Decision Aid to use within pre-screening discussions-A mixed methods study on patient and physician perspectives</p> <p><b>Ronen Bareket:</b> Schonberg index to Predict up to 9-year Mortality of Community-Dwelling Adults Aged 65 and Older - Validation for use with Electronic Medical Records in Israel</p> <p><b>John Hsu:</b> Reducing Use within Accountable Care Organizations</p>	<p><b>Room 134</b></p> <p><b>SPANISH Session</b></p> <p><b>CHAIR:</b> TBC</p> <p><b>Juan Víctor Ariel Franco:</b> Identification of medication discrepancies and potentially inadequate prescriptions in elderly adults with polypharmacy</p> <p><b>Mara Sempere Manuel:</b> Intervencion para mejorar el uso de benzodiazepinas en un departamento de salud</p> <p><b>Núria Molist:</b> Results of Application, a Patient-centered Prescription Model Assessing the Appropriateness of chronic Drug therapy in Older Patients</p> <p><b>Roser Vallès Fernández:</b> Deprescribir Fármacos que no Aportan Beneficio al Patient</p> <p><b>Marcella Marinelli:</b> Análisis de coste efectividad y de los daños causados por sobrediagnósticos de un programa de cribado de aneurismas de aorta abdominal.</p>	

	<b>Nancy Kressin:</b> U.S. States' Dense Breast Notifications: Incomprehensible and Confusing	<b>Malvinder Parmar:</b> Does computed tomography of chest (CT Chest) in the presence of pleural effusion provides additional information over chest X-ray to alter management?	<b>Stephen Hall:</b> Primary care physicians' over-utilization of medical tests and its association with cancer incidence and mortality	<b>Yu Wang:</b> Reconsideration on General Health Checks in China: a Community-based Study from Beijing City on People's Understanding and Utilisation	<b>Nikolai Mühlberger:</b> The benefit-harm balance of prostate cancer screening - A decision-analytic view on screening with and without active surveillance considering overdiagnosis and overtreatment	<b>Karla Salas Gama:</b> Analysis of the appropriateness of ambulatory prostate-specific antigen (PSA) test requests in a tertiary hospital in Barcelona.
	<b>Bjørn Hofmann:</b> The overdiagnosis of what? Barring the expansive conception of disease		<b>Fátima Kang:</b> Economic consequences of threatened preterm labor overdiagnosis			<b>Carolina Requeijo Lorenzo:</b> Racionalización de la demanda de electroforesis de proteínas séricas.

12:40 13:30	Room 111/112 - Elevator Pitches <b>CHAIR: Iona Heath</b> <b>Gloria S Wright:</b> Eating children: childhood obesity, schooling, parenting and doctoring feeding a hungry diagnostic market <b>Jack O'Sullivan:</b> Written information for patients on the use of antibiotics in acute upper respiratory infections in primary care <b>Enrico Heffler:</b> Slow Medicine approach promoted by the Italian Society of Allergy, Asthma and Clinical Immunology (SIAAIC): choosing wisely in Allergology <b>Joan C Vilanova:</b> Multiparametric MRI: the new paradigm to avoid overdiagnosis & overtreatment in prostate cancer <b>Nicole Grössmann:</b> What do we actually know about novel cancer therapies at the time of approval? <b>Alan Schroeder:</b> Defining a research agenda to identify and combat overdiagnosis in children <b>Ingvild M. Rosenlund:</b> Routine deferred computed tomography for patients with suspected urolithiasis is low-value health care <b>Cristina Colls:</b> Evaluation of the main factors related to hip fracture in people over 64 <b>Alexandra Barratt:</b> Markers of overdiagnosis and overtreatment in routinely collected data: application to the potential for MRI to cause overdiagnosis and overtreatment of knee and hip pathology <b>Shanay Daham:</b> The impact of a behavioural intervention on rates of inappropriate antibiotic prescribing <b>Jack Dowie:</b> Where does Overdiagnosis fit in a Multi-Criteria Decision Analysis? <b>Stuart Hogarth:</b> Overdiagnosis and the political economy of diagnostic innovation - setting a new research agenda <b>Violeta Rabrenovich:</b> Engaging Patients and Clinicians in Shared decision making process to mitigate unnecessary harm <b>Luciana Garbayo:</b> On Successfully Implementing Medical Guidelines for Breast Cancer Screening: A Role for Agent-Based Simulation Analysis in Mitigating Overdiagnosis					
-------------	---	--	--	--	--	--

13:30 14:15	Lunch – LEVEL 2					
-------------	-----------------	--	--	--	--	--

14.15 15:45	Workshop 1 - Room 129 <b>Barbara Dunn:</b> Overdiagnosis in Genetic Screening	Workshop 2 - Room 130 <b>Ruth Etzioni:</b> Navigating your way through the methods minefield of cancer overdiagnosis - and emerging whole	Workshop 3 – Room 131 <b>Corinna Schaefer:</b> Why is it so hard to understand? The challenge of communicating overdiagnosis to people facing screening decisions
	Seminar 1 – Room 132 <b>Saurabh Jha &amp; Suyash Mohan:</b> Overdiagnosis and Radiologists: Can the Arsonists become the Firefighters?	Seminar 2 – Room 133 <b>Gary Schwitzer:</b> Pernicious Promotion of Overdiagnosis: Public Relations News Releases	Seminar 3 – Room 134 <b>David Warriner:</b> Defining response and reducing harms from clinical therapies - lessons from cardiac resynchronization therapy.

15:45 16:15	Break - FOYER					
-------------	---------------	--	--	--	--	--

16:15 17:30	Room 111/112 - Drawing the line between Health and Disease: who and how to define disease? <b>CHAIR – Alex Barratt</b> Paul Glasziou - Centre for Research in Evidence-Based Practice, Bond University Mónica Cavagna Guerrero - Organización de Consumidores y Usuarios (OCU) Laragh Gollogly – World Health Organisation (WHO)					
-------------	--	--	--	--	--	--

**Day 2 – Wednesday 21st September**

08:00 09:15	Registration – Entrance A					
-------------	---------------------------	--	--	--	--	--

08:00 09:15	BMJ BREAKFAST SESSION - TBC					
-------------	-----------------------------	--	--	--	--	--

09:15 10:15	Room 111/112 - New Frontiers in Overdiagnosis <b>CHAIR – Helen Macdonald</b> Chris Semsarian - Cardiac Genomics and the Potential for Overdiagnosis Carol Brayne - Dementia and ageing brains: the clash of evidence, belief and policy in diagnosis and capacity to benefit in our ageing populations					
-------------	---	--	--	--	--	--

10:15 10:45	Break - FOYER					
-------------	---------------	--	--	--	--	--

	Workshop 4 - Room 132 <b>Kevin Somerville:</b> Overdiagnosis and overinvestigation as issues for life and living benefits insurance	Workshop 5 - Room 133 <b>Teppo Järvinen:</b> Fracturing a Frail Definition: A Cutting-Edge Social Media Movement to Dismantle an Overtreatment-Causing Definition	Workshop 6 – Room 134 <b>SPANISH Session</b> <b>Juan Víctor Ariel:</b> Soberdiagnóstico y toma de decisiones compartidas		
10:45 12:15	Panel session - Room 111/112 - Undiagnosing and Deprescribing: a special session on Ageing and Overdiagnosis David Le Couteur - University of Sydney Anna Renom Guiteras - University Hospital Parc de Salut Mar Tim Lambert - University of Sydney Mirko Petrovic - Universiteit Gent				
12:15 12:45	Room 111/112 - Elevator Pitches <b>SPANISH Session</b> CHAIR: <b>TBC</b> <b>Joana Fernandes:</b> Enfermedad poliúística renal autosómica dominante en niños: sobrediagnosticada? <b>Alicia Quilez Cutillas:</b> Cómo influye el conocimiento sobre los beneficios y riesgos relacionados con el programa de cribado en la decisión de participar: Enfoque deliberativo <b>Núria Molist:</b> A patient-centered prescription model assessing the appropriateness of chronic drug therapy in older patients <b>Gemma Viñas:</b> Breast cancer mortality after a diagnosis of ductal carcinoma in situ from 1985 to 2013 in Girona province. <b>Rosa María Vivanco Hidalgo:</b> Dyslipidemia, statin use and lipid profile in epilepsy patients and general population: EPIVASMAR-REGICOR comparative study <b>Sebastian Calero:</b> Is there a correlation between the overdiagnosis of hypercholesterolemia and inappropriate statin's prescription in primary prevention? <b>Naiara Parraza:</b> Sobrediagnóstico asociado a los programas poblacionales de cribado de cáncer en la Comunidad Autónoma del País Vasco <b>Francisco Hernansanz:</b> Prevalence of attention deficit/hyperactivity disorder in children and influence of relative age and socioeconomic status on diagnosis and treatment. <b>Gabriel Eli:</b> Atención primaria y cirugía de la próstata en el sur de Brasil <b>Dimelza Osorio:</b> Encuesta para conocer el grado de acuerdo de los médicos con las recomendaciones locales para reducir prácticas de poco valor clínico, en un hospital de tercer nivel				
12.45 13:30	<b>Lunch – LEVEL 2</b>				
	<b>Room 129</b>  <b>Widening disease definitions and tests that cause overdiagnosis</b>  <b>CHAIR:</b> David Klemperer  <b>Samuel Finnikin:</b> A THIN database investigation into cardiovascular risk scoring and the prescribing of statins in UK General Practice  <b>Peter Whitehouse:</b> Amyloid PET Scans: another expensive imaging test we don't need?  <b>Dawnelle Topstad:</b> An escalating thyroid cancer epidemic in Canada from over-diagnosis: national data analysis from 1992 – 2013	<b>Room 130</b>  <b>Ageing and overdiagnosis, dediagnosis and deprescribing</b>  <b>CHAIR:</b> Joan MV Pons  <b>Caterina Vicens:</b> Evaluation of a multifactorial intervention to reduce the consumption of benzodiazepines in primary care. A randomized cluster clinical trial  <b>Kristen Anderson:</b> Why we fail to act – perspectives of general practitioners and consultant pharmacists on deprescribing in primary care  <b>Jesse Jansen:</b> Reducing inappropriate use of multiple medicines (polypharmacy) in older people: pilot study of a communication tool to support decision making	<b>Room 131</b>  <b>Interventions to mitigate overdiagnosis and overtreatment</b>  <b>CHAIR:</b> John Brodersen  <b>Minna Johansson:</b> Methodological challenges in quantifying overdiagnosis in organized screening for abdominal aortic aneurysm using Swedish registry data  <b>Rachelle Buchbinder:</b> Consumer information about knee arthroscopy: a review of written patient information provided by clinicians or easily accessible via the internet in Australia  <b>Chris Degeling:</b> Shared decision making and PSA screening for prostate cancer: all care, but whose responsibility?	<b>Room 132</b>  <b>Interventions to mitigate overdiagnosis and overtreatment</b>  <b>CHAIR:</b> David Henry  <b>Simon Deblois:</b> A systematic review of the interventions aiming at reducing the overuse of diagnostic imaging in the emergency department and inpatient settings when a pulmonary embolism is suspected  <b>Hadeel Nimaa:</b> Overtreatment of polyps in low risk groups  <b>Lorette Stammen:</b> Training physicians to provide high-value, cost-conscious care	 <p><b>4<sup>th</sup> INTERNATIONAL PREVENTING OVERDIAGNOSIS conference</b></p> <p><b>20th-22nd SEPTEMBER 2016</b></p>  <p><b>PREVENTING OVERDIAGNOSIS</b> Winding back the harms of too much medicine</p> <p><b>REGISTRATION OPEN NOW</b></p> <p>Hosted by: Agency for Health Quality and Assessment of Catalonia (AQuAS)</p> <p><b>Venue: CCIB - Barcelona , Spain</b></p> <p>In partnership with The BMJ, Consumer Reports, Dartmouth Institute of Health Policy and Clinical Practice, Bond University &amp; CEBM, University of Oxford preventingoverdiagnosis.net</p>

**Barbara Mintzes:** Pharmaceutical industry-funded education on overdiagnosed conditions

**Tessa Copp:** Impact of the Polycystic Ovary Syndrome (PCOS) disease label on medical decision making and psychosocial outcomes

**Brett Thombs:** There is not evidence that "screening" with self-report questionnaires for presently experienced health problems and symptoms improves health: a review of randomized controlled trials included in major screening guidelines and recommendations

**Johanna Caro Mendivelso:** Impact of ESSENCIAL recommendations in primary care

**Kristie Weir:** Shared decision making about multiple medicines: the attitudes and experiences of healthy and frail older adults and their companions

**Eric Geijteman:** Opinions of physicians on discontinuation of medications at the end of life: a questionnaire study

**Jolyn Hersch:** 12-month follow-up effects of overdetection information in a breast screening decision aid trial

**Eric Coon:** Trends of head CT imaging, detection of intracranial bleeding and skull fractures, and outcomes in pediatric isolated head injury

**Moriah Ellen:** Addressing 'waste' in health systems through disinvestment: a critical interpretive synthesis

**Aaron Lear:** Does following guidelines for patients admitted to hospital with low risk chest pain lead to unnecessary stress testing and coronary angiography?

**Fiona Miller:** Informally regulated innovation systems: challenges for responsible innovation in diagnostics

**Marleine Azar:** Transparency of outcome reporting and trial registration of randomized controlled trials of non-regulated health interventions

Workshop 7 room 133  
**Wynne Norton:** De-Implementation: Exploring Multi-Level Strategies for Reducing Overdiagnosis and Overtreatment

Workshop 8 – Room 134 SPANISH Session  
**Beatriz Gonzalez:** Iatrogenics by SESPAS\*

15:00 15:30 Break - FOYER

**Room 129**

**Widening disease definitions that cause overdiagnosis**

**CHAIR:** David Henry

**Eric Coon:** Overdiagnosis of coronary artery abnormalities among children with Kawasaki Disease

**Cristina Colis:** Actors and factors influencing treatment with drugs for attention deficit and hyperactivity disorder (ADHD)

**Rae Thomas:** Overdiagnosis of osteoporosis? Views of Australian women in community focus groups

**Jenny Doust:** Are we overdiagnosing myocardial infarction?

**Room 130**

**Interventions to mitigate overdiagnosis and overtreatment**

**CHAIR:** Russ Harris

**Montserrat Rue:** Towards a better paradigm for breast cancer screening: establishing risk-based strategies and informing women and health professionals about benefits and harms

**Ian Scott:** Underuse of risk assessment and overuse of CTPA in patients with suspected pulmonary thromboembolism

**Ian Scott:** Unnecessary hospitalization and investigation of low risk patients presenting to hospital with chest pain

**Merce Obach:** QPI tool: an intervention in primary care to enhance prescription quality

**Room 131**

**Interventions to mitigate overdiagnosis and overtreatment**

**CHAIR:** TBC

**Brooke Nickel:** Words do matter: a systematic review on how different terminology for the same condition influences treatment decision making

**Carlo Liverani:** Inappropriate use of HPV testing among Italian gynecologists

**Dennis Fechtelpeter:** A decision aid for mammography screening in Germany – development of information about overdiagnosis

**Gari Blumberg:** Who chooses laboratory tests? The physician or the computer?

**Room 132**

**Hot topics in overdiagnosis: cancer screening and end of life care**

**CHAIR:** Barry Kramer

**Lindy Willmott:** Reasons doctors provide futile treatment at the end of life: a qualitative study

**Sian Taylor-Phillips:** Evaluating potential overdiagnosis in population screening programmes: systematic review comparing evidence review methods in 15 countries

**Jason Oke:** Estimates of excess cancer incidence and cancer deaths avoided in Great Britain from 1980 – 2012: the potential for overdiagnosis

**Jaume Galceran:** Estimation of the effect of prostate-specific antigen (PSA) test on prostate cancer incidence, survival and prevalence in Tarragona, Spain

15.30 17:15

<p><b>Kuniyoshi Hayashi:</b> Measurement error of HbA1c for screening diabetes among healthy Japanese adults</p>	<p><b>Charlotte Lunde:</b> The making of a patient: an analysis of a neuropsychiatric patient's case (informed consent given)</p>	<p><b>Uri Goldberg:</b> Two year sustainability of an educational intervention to reduce unnecessary stress ulcer prophylaxis</p>	<p><b>Cinzia Colombo:</b> Four citizen juries on screenings in Italy: an effective method to inform health-care policy decisions. The experiences on prostate cancer and cystic fibrosis carrier screening</p>	
<p><b>Joan Escarrabill:</b> Variability in home respiratory therapies in Catalonia</p>	<p><b>Donatella Sghedoni:</b> "Doing more does not mean doing better" Project: Italian Diabetologists' Association (AMD) take the opportunity to promote overdiagnosis and overtreatment</p>	<p><b>Timothy Wilt:</b> Clinical guidelines and recommendations from the American College of Physicians: their role in improving health care value and reducing overdiagnosis</p>	<p><b>Pamela Marcus:</b> Cancer overdiagnosis: discussing our disagreements</p>	
<p>Workshop 9 - Room 133</p> <p><b>Amitava Banerjee:</b> Big data-part of the problem of over-diagnosis or part of the solution?</p>			<p>Seminar 4 – Room 134</p> <p><b>James McCormack, Paul Glasziou, Richard Lehman, Alan Cassels &amp; John Yudkin:</b> How clinical practice guidelines for chronic disease prevention could reduce overdiagnosis instead of promoting overdiagnosis</p>	
<p>20:00 Social</p>				

**Day 3 – Thursday 22nd September**

<p>08:00 09:00</p>	<p>Registration – Entrance A</p>					
<p>09:00 10:30</p>	<p>Room 111/112 - Moving from Evidence to Action  <b>CHAIR – Steve Woloshin &amp; Lisa Schwartz</b>  Cari Almazan - How to avoid unnecessary interventions in primary care  William C. Black - New radiologic reporting and management guidelines for screening and incidental detection  Catherine Calderwood - Realising Realistic Medicine to address over-diagnosis  Followed by 30 min panel and audience discussion about interventions</p>					
<p>10:30 11:00</p>	<p>Break - FOYER</p>					
<p>11:00 12:30</p>	<p><b>Room 129</b></p> <p><b>Widening disease definitions that cause overdiagnosis</b></p> <p><b>CHAIR: TBC</b></p> <p><b>Jarno Rutanen:</b> Differences in disease definition across medical specialties</p> <p><b>Paula Byrne:</b> Who is prescribed statins and why? Cross sectional analysis of cardiovascular risk and socio-demographic factors influencing statin prescription from The Irish Longitudinal Study on Ageing</p> <p><b>Teresa Leonardo Alves:</b> Exposure to disease awareness campaigns in printed and online media in Latvia</p>	<p><b>Room 130</b></p> <p><b>Socio-cultural and existential drivers of overdiagnosis</b></p> <p><b>CHAIR:</b> Iona Heath</p> <p><b>Minna Johansson:</b> "Informed choice" in a time of too much medicine - no panacea for ethical dilemmas</p> <p><b>Carl Tagesson:</b> Fear of the dark: tendency to overuse CT-imaging of the aorta in search for an explanation of unclear chest pain</p> <p><b>Brooke Nickel:</b> Stories of overdiagnosis: men's experiences of choosing not to have surgery for prostate cancer</p>	<p><b>Room 131</b></p> <p><b>Socio-cultural and existential drivers of overdiagnosis</b></p> <p><b>CHAIR:</b> Alex Barratt</p> <p><b>Ciara Pendrith:</b> Low value testing in primary care</p> <p><b>Paul Glasziou:</b> Prevalence of differentiated thyroid cancer in autopsy studies over six decades: a meta-analysis</p> <p><b>Elizabeth Thomas:</b> Prevalence of incidental breast cancer and precursor lesions in autopsy studies: a systematic review</p>	<p><b>Room 132</b></p> <p><b>Interventions to mitigate harms of Overdiagnosis</b></p> <p><b>CHAIR: TBC</b></p> <p><b>David Henry:</b> Impact of delisting diagnostic imaging studies for uncomplicated low back pain in Ontario</p> <p><b>Dan Reuland:</b> Effects of a lung cancer screening decision aid on overdiagnosis knowledge and screening intent in primary care patients</p> <p><b>Donatella Sghedoni:</b> "Doing more does not mean do better" Project: some ambiguities may not prevent overdiagnosis and overtreatment</p>	<p><b>Room 133</b></p> <p><b>Interventions to mitigate harms of Overdiagnosis</b></p> <p><b>CHAIR: TBC</b></p> <p><b>Natalie Armstrong:</b> Trial participation as a strategy to avoid over-diagnosis</p> <p><b>Stephen Hall:</b> What are the indications for and the implications of ordering a diagnostic neck ultrasound examination?</p> <p><b>Christiana Naaktgeboren:</b> Preventing overdiagnosis through the de-implementation of low-value diagnostic tests: a systematic review</p>	<p><b>Room 134</b></p> <p><b>SPANISH Session</b></p> <p><b>CHAIR: TBC</b></p> <p><b>Oscar Garcia Gimeno:</b> Promoción del Right Care en un Centro de Atención Primaria</p> <p><b>Mercè Marzo:</b> Oportunitades para aumentar el valor de nuestras intervenciones: Recomendaciones NO HACER de semFYC</p> <p><b>Jacobo Mendioroz:</b> Diagnostic quality standards: reducing overdiagnosis in primary health care</p>

	<p><b>Kevin Jenniskens:</b> Methodological challenges for overdiagnosis: what's out there?</p> <p><b>Cynthia Feltner:</b> Quantifying overdiagnosis in serologic screening for genital herpes: barriers and future research needs</p> <p><b>Kari Tikkinen:</b> The concept of psychiatric disease: public, health professional, and legislator perspectives</p>	<p><b>Sofia Cuba:</b> Attitudes, perceptions and awareness concerning quaternary prevention among family doctors working in the Social Security system, Peru</p> <p><b>Vincent Doria-Rose:</b> The US PROSPR Research Network: a Platform for Studying Overdiagnosis in the Community Setting</p> <p><b>Agnish Nayak:</b> What is the evidence for legacy effects of statins? A systematic review</p>	<p><b>Ian Scott:</b> The elephants in the room – the role of cognitive biases in overdiagnosis and overtreatment</p> <p><b>Astridur Stefansdottir:</b> Why are fat people the focus of medical attention?</p>	<p><b>Stuart Hogarth:</b> Overdiagnosis and the progress of diagnostic reform</p> <p><b>Anne Katrine Bie:</b> Why do some colorectal cancer screening participants choose not to undergo colonoscopy following a positive test result?</p> <p><b>Luca Iaboli:</b> Doctor G: a graphic medicine project promoting statistical literacy to contrast overdiagnosis</p> <p><b>Monika Nothacker:</b> Gemeinsam Klug Entscheiden. Choosing wisely - together. An initiative of the Association of the Medical Scientific Societies (AWMF) and its member societies in Germany</p>	<p><b>Jeffrey Kulgren:</b> Commitment to Choosing Wisely is a low cost, scalable strategy that can decrease clinician ordering of services that can lead to overdiagnosis</p> <p><b>Jayant Vaidya:</b> The TARGIT trial and the chance confirmation of the hazards of over-diagnosis when screening for breast cancer</p> <p><b>Bareket/Gaver:</b> The Israeli Society for the Reduction of Overdiagnosis (ISROD) - Foundation and Challenges</p>	<p><b>Jacobo Mendioroz:</b> Prescription quality standards (PQS): reducing overtreatment in primary health care</p> <p><b>Roser Vallès Fernández:</b> implementación del proyecto esencial en atención primaria: un proyecto multidisciplinar</p> <p><b>Antonio Sánchez Hidalgo:</b> Objective criteria for ordering cardiac stress tests to reduce overdiagnosis of ischemic heart disease</p> <p><b>Marcella Marinelli:</b> Atlas de variaciones de la práctica clínica: ¿una herramienta para identificar posible sobre o infra-tratamiento? El caso de las artroplastias en Catalunya</p>
12:30 13:00	<p>Room 111/112 - Elevator Pitches  CHAIR: <b>Steve Woloshin &amp; Lisa Schwartz</b>  <b>Don Benjamin:</b> Exploring alternative cancer paradigms  <b>Gwyn Carney:</b> The Balint Movement: Historical Solutions to Prevent Overdiagnosis  <b>Johanna Caro Mendivelso:</b> Drivers for low-value practices in primary care setting: a qualitative study  <b>Vasily Vlassov:</b> Russia's experience with overdiagnosis during 'dispanserization'  <b>Hans Johan Breidablik:</b> Specialized health service in mental health care - allocation by patient's zip code?  <b>Jack O'Sullivan:</b> Practices of no net benefit  <b>Dylan Collins:</b> Total cardiovascular risk assessment in humanitarian medical settings: implications and improvements for statin therapy in the prevention of cardiovascular diseases  <b>Manfred Gogol:</b> Precision Medicine and Overdiagnosis – Friend or Foe?  <b>Wouter Havinga:</b> Stop fever phobia to reduce antibiotic prescribing in children and unnecessary GP consultations and pediatric admissions  <b>Enrico Heffler:</b> Mis-diagnosis of lower airway obstructive diseases (asthma and COPD) and under-utilization of spirometry in primary setting  <b>Ayodele Kazeem:</b> Identifying overutilization of diagnostics and the financial impact on patient pathway costs  <b>Donatella Sghedoni:</b> The first appraisal of Choosing Wisely recommendations showed disappointing results. Here are some good reasons  <b>Helen Howson:</b> Prudent Initiative</p>					
13:00 13:45	Lunch – LEVEL 2					
13:45 15:15	<p>Workshop 10 – Room 129  <b>Kimberley Ivory &amp; Brian Lobel:</b> Benign euphemism or malicious doublespeak? The role of language in "overdiagnosis"</p>			<p>Workshop 11 – Room 130  Molecular and Cellular Characterization of Screen-Detected Lesions  <b>Jim Brooks:</b> Cancer screening and the Challenges of Over-diagnosis and Over-treatment  <b>Laura Esserman:</b> Unlocking the Mystery of Overdiagnosis: Implication for Early Detection  <b>Sudhir Srivastava:</b> Research Directions to Understanding Overdiagnosis: Biology of Screen-detected vs Symptom-detected Cancer</p>		
	<p>Seminar 5 – Room 131  <b>Jessica Ote:</b> Around the world in 80 names: Exploring global variation in terminology pertaining to 'preventing overdiagnosis'</p>			<p>Seminar 6 – Room 132  <b>Martin Whitely:</b> The rise and fall of ADHD in Perth Western Australia - lessons learned in isolation</p>		
15:15 16:00	<p>Room 111/112  <b>CHAIR - Paul Glasziou</b>  Carl Heneghan - Journey to understanding overdiagnosis and too much medicine  Huge Veins - Overdiagnosis and the medical profession; Time for a new social contract  Closing Remarks</p>
